

# QUICK START GUIDE

## DataLocker Sentry 5 - Encrypted Flash Drive

**1.** Plug the secure USB drive in:

- Wait for up to 30 seconds
- No need to restart your computer
- Drive letters vary with computer

 (D:) Unlocker

**2.** Double-click & Run the **Unlocker** application.

- Windows: Start > This PC > Unlocker > Unlocker
- Mac: Finder > Unlocker > Unlocker

**3.** Follow the steps in the Unlocker software when prompted.

- **If the device is to be managed by [SafeConsole](#)** you will need to follow the steps provided by your administrator or organization to complete the setup. DataLocker cannot provide your organization specific details.
- Sentry 5 devices marked -M on the back always require a SafeConsole device control license (sold separately).

**4.** After you have unlocked the device your secure storage will mount/connect and become accessible.

 (D:) Unlocker

 (E:) PRIVATE USB

- You can move your important files to the PRIVATE\_USB drive and they will be automatically encrypted.

**5.** Sentry 5 locks when it is unplugged, powered down, timed out, locked from the menu or when you log out.
